FY2019 ANNUAL REPORT
Dear Friends,

Thank you for making 2019 yet another remarkable year of milestones and celebrations.

This year, Anchor Center for Blind Children celebrates 37 years of service to young children with visual impairments. We celebrate 37 years of serving their parents and families. We celebrate the fortitude and vision of our founders, including our wonderful friends, Delta Gamma, who, in 1982, founded Anchor Center in the basement of a church and who lovingly grew it to serve thousands of babies, toddlers and preschoolers over the years.

Did you know that blindness is rare? Less than one-half of one-percent of young children with disabilities have a vision impairment. As a “low incidence” disability, expertise in pediatric vision impairment services for children in their formative years (birth to age 5) can be difficult to find. Anchor Center for Blind Children continues to be one of a handful of organizations in the country that has this unique expertise and specialty.

Throughout our history, Anchor Center has created model programs and services, cultivated long-term partnerships, gained national recognition, and built a remarkable base of donors who have loyally supported Anchor’s programs and invested in its growth. As we look toward the future in 2020, we are inspired by an exceptional vision (pun intended!) to continue advancing best practices in services for young children with visual impairments, including screening & assessments, research and training for parents, caregivers, educators and healthcare professionals.

Thank you for being an important part of our community, which has been built and sustained by the remarkable generosity of donors and funders, our gifted and dedicated staff, the loving contributions of our volunteers and loyal leadership of our Board of Directors. We are so very grateful to share our journey with you.

With Gratitude,

Meghan S. Klassen, M.Ed.
Executive Director

Jeff Watkins, CPA
Board President

**ASSESSMENTS**

414 ASSESSMENTS (582 HOURS)
101 NEW REFERRALS (118 HOURS)
261 EYE EXAMS (261 HOURS)
13 LOW VISION CLINICS (13 HOURS)

124 FUNCTIONAL VISION ASSESSMENTS (150 HOURS)
16 TRANSDISCIPLINARY ARENA STYLE ASSESSMENTS (40 HOURS)
PROGRAMS

INFANTS  (0-18 months)

Teachers and therapists help caregivers gain understanding of their child's unique vision challenges and strengths; strategies to care for their infant's special needs; and tools to nurture their child's early development.

“Lane first came to us at 3 months old. Now he has some amazing skills...this kid has no fear! He is crawling all over the place and is a sensory seeker. He explores everything he can get his hands on. He uses auditory input to locate where he wants to go. Lane is always happy and willing to try new experiences!”

Tamara Miller, Teacher of Students with Visual Impairments, Infant/Toddler Coordinator

TODDLERS  (18 months – 3 years)

Teachers and caregivers work with toddlers on their visual, auditory, and motor development, orientation and mobility, including cane travel and pre-literacy, communication, and social skills.

“When Genesis first came to Anchor, she was extremely tactilely-defensive and unwilling to touch anything with her hands. Now she is much more willing to touch new things, she’s more social and loves being with her friends. Genesis makes eye contact regularly, and she is even beginning to make choices independently. These are all great skills to have as she is getting ready for preschool. She’s our superstar!”

Tamara Miller, Teacher of Students with Visual Impairments, Infant/Toddler Coordinator

Preschoolers receive individualized early childhood special education via the nationally accredited Expanded Core Curriculum (ECC). Preschool advances instruction in orientation and mobility, literacy and braille, prosocial and daily living skills, and the use of assistive technology. Preschoolers also enjoy multisensory education through music and horticultural therapies, as well as community field trips and events.

“Mathias has come such a long way since he started attending Anchor Center. With great strides, Mathias has worked on independent exploration of different classrooms, understanding the purpose of using a mobility cane, and eating independently. His use of auditory skills and increasing tactile exploration are setting him up to be ready for kindergarten.”

Elise Darow, Teacher of Students with Visual Impairments, Orientation and Mobility Instructor, Preschool Coordinator

HOME VISITS  (0 – 3 years)

Provided in the child’s home, our Teachers of Students with Visual Impairments (TSVIs) offer one-to-one vision consultation and training to parents/caregivers and children. Our TSVIs assist parents in adapting their homes and practicing techniques to promote and nurture infant and early childhood development, exploration and learning.

“Felicity had brain surgery early in her life and at the time had minimal to no functional use of vision. Felicity was diagnosed with Cortical Visual Impairment (CVI) and since coming to Anchor, we’ve been able to ‘re-wire’ her visual pathways to help her see!”

Callie Robinson, Early Childhood Special Educator, Teacher of Students with Visual Impairments

SUMMER PROGRAMMING

Summer Sprouts Infant/Toddler Program

Anchors Away Preschool Camp

50  STUDENTS SERVED
WHO WE SERVE

ALUMNI Spotlight

“Millie was only 4 months old when we first took her to Anchor Center and we weren’t sure if she had any vision at all. Within the first 15 minutes of walking into the center, we were told that she was able to track and she had some vision. Anchor offered us endless support and showed us that we were far from alone and we could overcome any hurdles. They gave us the confidence we needed to be successful parents to a visually impaired child. Anchor has given Millie a confidence she may not have found otherwise. She believes in herself, she is so determined and she is a huge advocate for herself. Anchor has helped instill those thoughts in Millie’s mind through education, support and experiential learning.”

Hollie, Millie’s mom

“Without the support, encouragement, and guidance of the Anchor Center staff, Millie wouldn’t be where she is today, a thriving kindergarten student in Jeffco.”

Connie Brakken, Millie’s grandmother

FAMILY SERVICES

SIBLING SERVICES 31 Siblings Participated (no cost to families)

RESPITE CARE 38 Children Attended

PARENT/CAREGIVER EDUCATION 9 Parent Centers, 19 Parent Education Classes, 30 Hours

MOST COMMON VISUAL DIAGNOSES AT ANCHOR CENTER*  

*Cortical Visual Impairment (CVI) 54%  Nystagmus 24%  Oculomotor Apraxia 19%  Optic Nerve Hypoplasia 16%  Strabismus 11%  

INFANTS 54%  TODDLERS 23%  PRESCHOOLERS 61%  HOME VISITS 74%  

*Many children have more than one visual diagnosis.

CORTICAL VISUAL IMPAIRMENT (CVI) DIAGNOSES BY ENROLLMENT

More than 50% of our students have been diagnosed with CVI, which is a brain-based visual impairment. That means the eyes are healthy, but the brain is not able to interpret visual information. It is the current leading cause of visual impairment in children in the developing world, including the United States, and it often presents with other neurological disorders.

MOST COMMON VISUAL DIAGNOSES AT ANCHOR CENTER*
WHO WE ARE

VOLUNTEERS

Spotlighting Cheryl Blankenship

In her many years of service to Anchor Center, Cheryl has served in nearly every volunteer and leadership capacity. Before becoming a board member, Cheryl volunteered in the classroom where she was tasked with, and loved, holding babies. As a member of the Anchor Board of Directors, Cheryl took her stewardship role seriously. Always the master networker, Cheryl has brought an untold number of her friends, neighbors and associates to Anchor Center, resulting in new donors, board members, volunteers, and event guests. We are proud to honor Cheryl Blankenship for her years of dedicated support and her love of the children, families and mission of Anchor Center for Blind Children.

743 VOLUNTEERS contributed 4,364 HOURS WORTH $122,267

BOARD OF DIRECTORS

Developmental Specialist

Pat Lewis
Teacher of Students with Visual Impairments and Orientation & Mobility Instructor
After years of supporting the same schools and charities, we were looking for something different in our community that served children. We were moved to become major supporters of Anchor Center after visiting their incredible facility and learning about its unique mission. There is nothing else like it in Colorado for these special children! We were also able to grow our charitable impact via the 50% Colorado Child Care Tax Credit, which allowed us to essentially double our donation capacity and stretch it even further. We would encourage anyone who is curious to learn more about Anchor Center to show up and visit. There is no doubt in our minds that you will leave inspired to support their work–just as we were!
