Activity: **Sesame Street Special/ CNN - COVID19**

Brief description of activity: Sesame Street special that gently explains questions around COVID-19 from children. Sesame has done specials like this in the past for events like Hurricane Katrina, and does a wonderful job of breaking down important information for children. This can also help caregivers answer questions their child might have about the current situation.

Materials (if needed): Computer, tablet, or phone

Instructions: <https://www.cnn.com/2020/04/25/app-news-section/cnn-sesame-street-coronavirus-town-hall-april-25-2020-app/index.html>

Target areas (how this learning is meaningful to students):

Social/Emotional: This can help with the feelings that arise in both adults and children in a time of uncertainty. Creating a safe and open space for important conversation to take place .
